GrowMetroTulsa.com

NATIONALLY RECOGNIZED REGIONAL ECONOMIC DEVELOPMENT PROGRAMS

Business Retention and Expansion

Eighty-eight percent of the region's new jobs are created by existing businesses. The Business Retention and Expansion (BRE) program assists Tulsa-area companies with overcoming barriers to growth, leveraging expansion opportunities, workforce issues and other business needs.

Business Attraction and Marketing

The Tulsa region balances convenience, affordability and a great quality of life with a talented workforce, a central U.S. location and a pro-business atmosphere. Extensive proactive marketing efforts tout these attributes to key corporations and global site location firms to assist in the recruitment of new companies to Tulsa and northeast Oklahoma.

Entrepreneurship, Small Business Development & Small Business Connection

Eighty-two percent of all Tulsa-area businesses have fewer than 10 employees. Economic development efforts focus on cultivating entrepreneurs, marketing available small business resources and expanding opportunities to more diverse constituencies.

Education and Workforce Development

The Chamber engages the business community to positively impact the community's K-12 and higher education systems. Additionally, the Chamber optimizes the region's talent recruitment efforts through key business partnerships, ChooseTulsa.com and Tulsa's Young Professionals.

Advocacy and Outreach

The Chamber builds consensus with regional partners on priority issues and effectively influences local, state and federal legislation.

Downtown Development

Recognizing downtown as a key economic generator, the Chamber facilitates development in downtown areas including the Brady, Blue Dome and Greenwood Districts, ONEOK Field, the area surrounding the BOK Center, as well as other locations inside the Inner Dispersal Loop.
